

In accordance with § 672.20(c)(1)(ii)(B), the northern rockfish total allowable catch (TAC) for the Western Regulatory Area of the GOA was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8470, February 14, 1995) as 640 metric tons (mt).

The Director, Alaska Region, NMFS (Regional Director), has determined, in accordance with § 672.20(c)(2)(ii), that the 1995 TAC of northern rockfish in the Western Regulatory Area soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 576 mt after determining that 64 mt will be taken as incidental catch in directed fishing for other species in the Western Regulatory Area of the GOA. Consequently, NMFS is prohibiting directed fishing for northern rockfish in the Western Regulatory Area in the GOA.

Directed fishing standards for applicable gear types may be found in the regulations at § 672.20(g).

#### Classification

This action is taken under § 672.20 and is exempt from review under E.O. 12866.

#### Groundfish of the Gulf of Alaska; Pacific Ocean Perch in the Western Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is closing the directed fishery for Pacific ocean perch (POP) in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the total allowable catch (TAC) for POP in the Western Regulatory Area.

**EFFECTIVE DATE:** 12 noon, Alaska local time (A.l.t.), July 20, 1995, until 12 midnight, A.l.t., December 31, 1995.

**FOR FURTHER INFORMATION CONTACT:** Michael Sloan, 907-581-2062.

**SUPPLEMENTARY INFORMATION:** The groundfish fishery in the GOA exclusive economic zone is managed by NMFS according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

In accordance with § 672.20(c)(1)(ii)(B), the TAC for POP in the Western Regulatory Area was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8470, February 14, 1995) as 1,014 metric tons (mt).

The Director, Alaska Region, NMFS (Regional Director), has determined, in accordance with § 672.20(c)(2)(ii), that the TAC for POP in the Western Regulatory Area of the GOA soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 914 mt, with consideration that 100 mt will be taken as incidental catch in directed fishing for other species in the Western Regulatory Area of the GOA. The Regional Director has determined that the directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for POP in the Western Regulatory Area of the GOA.

Directed fishing standards for applicable gear types may be found in the regulations at § 672.20(g).

#### Classification

This action is taken under § 672.20 and is exempt from review under E.O. 12866.

#### Groundfish of the Gulf of Alaska; Trawl Fishery for Deep-water Species

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting directed fishing for species that comprise the deep-water species fishery by vessels using trawl gear in the Gulf of Alaska (GOA). This action is necessary because the third seasonal bycatch allowance of Pacific halibut apportioned to the deep-water species fishery in the GOA has been caught.

**EFFECTIVE DATE:** 12 noon, Alaska local time (A.l.t.), July 21, 1995, until 12 noon, A.l.t., October 1, 1995.

**FOR FURTHER INFORMATION CONTACT:** Andrew N. Smoker, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** The groundfish fishery in the GOA exclusive economic zone is managed by NMFS according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 672.

In accordance with § 672.20(f)(1)(i), the deep-water species fishery, which is defined at § 672.20(f)(1)(i)(B)(2), was apportioned 400 metric tons of Pacific halibut prohibited species catch for the third season, the period July 1, 1995, through September 30, 1995 (60 FR 8470, February 14, 1995).

The Director, Alaska Region, NMFS, has determined, in accordance with § 672.20(f)(3)(i), that vessels participating in the trawl deep-water species fishery in the GOA have caught the third seasonal bycatch allowance of Pacific halibut apportioned to that fishery. Therefore, NMFS is prohibiting directed fishing for each species and species group that comprise the deep-water species fishery by vessels using trawl gear in the GOA. The species and species groups that comprise the deep-water species fishery are: All rockfish of the genera *Sebastes* and *Sebastolobus*, Greenland turbot, Dover sole, Rex sole, arrowtooth flounder, and sablefish.

Directed fishing standards for applicable gear types may be found in the regulations at § 672.20(g).

[Docket No. 950206040-5040-01; I.D. 071795C]

**Groundfish of the Bering Sea and Aleutian Islands Area; Atka Mackerel in the Central Aleutian District**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is closing the directed fishery for Atka mackerel in the Central Aleutian District of the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to prevent exceeding the total allowable catch (TAC) of Atka mackerel in that area.

**EFFECTIVE DATE:** 12 noon, Alaska local time (A.l.t.), July 17, 1995, until 12 midnight, A.l.t., December 31, 1995.

**FOR FURTHER INFORMATION CONTACT:** Andrew N. Smoker, 907-586-7228.

**SUPPLEMENTARY INFORMATION:** The groundfish fishery in the BSAI exclusive

economic zone is managed by NMFS according to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson Fishery Conservation and Management Act. Fishing by U.S. vessels is governed by regulations implementing the FMP at 50 CFR parts 620 and 675.

In accordance with § 675.20(a)(7)(ii), the Atka mackerel TAC for the Central Aleutian District was established by the Final 1995 Harvest Specifications of Groundfish (60 FR 8479, February 14, 1995) as 50,000 metric tons (mt) as amended (60 FR 27488, May 24, 1995). The directed fishery for Atka mackerel was closed on April 25, 1995 (60 FR 20916, April 28, 1995). That closure was terminated on July 1, 1995 (60 FR 33150, June 27, 1995), upon determination that the 1995 TAC for Atka mackerel in the Central Aleutian District had not been reached.

The Director, Alaska Region, NMFS (Regional Director), has determined, in accordance with § 675.20(a)(8), that the

Atka mackerel TAC in the Central Aleutian District soon will be reached. Therefore, the Regional Director has established a directed fishing allowance of 49,500 mt after determining that 500 mt will be taken as incidental catch in directed fishing for other species in the Central Aleutian District. Consequently, NMFS is prohibiting directed fishing for Atka mackerel in the Central Aleutian District.

Directed fishing standards for applicable gear types may be found in the regulations at § 675.20(h).
